

## **The Kaleo Project Covenant**

### Part 2

#### Kaleo Fellows

Becoming a Kaleo Fellow brings with it great responsibility and great reward. As a Kaleo Fellow, you will stretch as you grow into the role, a role that requires you to exercise vision, leadership, and resilience. In return for your investment in this project, you will be rewarded with training in innovation, leadership, and entrepreneurial ministry development. You will be the first eyes to see how ministry to young adults in the Denver area can be done, from the Nones to the religiously affiliated. You will have the support of the Kaleo team at Denver Seminary to help you thrive.

I covenant to fully participate in the Kaleo Project to the best of my ability, attending the Innovation Hubs held three times a year and at least six online learning labs, as well as volunteering my time and energy to build the Kaleo ministry in my local congregation.
